Plagiarism Training Requirement: All students in the COPH must adhere to the highest standards of professional and ethical conduct. Among these standards is the recognition that student written work must be original and appropriately cited. In order to facilitate understanding of this standard, all students must complete the on-line course "How to Recognize Plagiarism: Tutorials" at <a href="https://plagiarism.iu.edu/tutorials/">https://plagiarism.iu.edu/tutorials/</a> and complete the Certification Test at <a href="https://plagiarism.iu.edu/certificationTests/index.html">https://plagiarism.iu.edu/certificationTests/index.html</a>. Upon successful completion of the test, students must provide a copy of the Validation Certificate to the COPH Office of Student Affairs at <a href="mailto:cophoffice@uams.edu">cophoffice@uams.edu</a>. The requirement must be completed by the first day of classes.

Writing Milestone Requirement: All degree-seeking students who enter the College of Public Health will be required to complete a Writing and Reasoning Skills Assessment at the beginning of their first semester. The Assessment will identify strengths and weaknesses and highlight opportunities for improvement. Students who do not meet a predetermined score will be required to complete an online Public Health Writing Workshop course. This course will address the fundamentals of good writing, writing with scholarly sources, revision strategies, and other topics

in the interest of improving student writing skills. This is a non-credit curriculum requirement.

**IPE Curriculum Requirement:** As of the Fall 2015 semester, all COPH degreeseeking students are required to complete the UAMS Quadruple Aim Interprofessional Education (IPE) Program prior to graduation. According to the World Health Organization (WHO). "Interprofessional Education occurs when two or more professions learn with,

| Ph | PhD in Health Systems and Services Research   |  |  |  |  |
|----|---|--|--|--|--|
| Co | mpetency  | Course   | Assessment   |  |  |
| 1. | Assess how environmental context affects variation in health system outcomes.           | HPMT 6213<br>Variation in Health<br>System Performance             | Writing Assignment: Students are asked to conduct a project that discusses and assesses how environmental context affects variation health system outcomes. The assignment is graded using a rubric shown on the course syllabus.  |  |  |
| 2. | Create conceptual frameworks to guide health services research studies.                 | HPMT 6103<br>Health Systems Theory<br>and Research                 | Written Assignment: Students are to develop and present in a paper a conceptual framework for a health services research topic that is based on what is known about the outcome, including factors or elements that directly or indirectly lead to it, that are described in scholarly literature. The assignment is graded based on criteria articulated on the course syllabus.  |  |  |
| 3. | Evaluate HSR issues using appropriate analytical techniques.                            | HPMT 6323<br>Advanced Econometric<br>Methods and Special<br>Topics | Written Assignment: Students are to complete an applied class project to obtain and analyze data using econometric methods presented in class, as well as interpret and incorporate findings in a peerreview manuscript template following STROBE guidelines. Students are graded using a rubric that is included on the course syllabus.  |  |  |
| 4. | Formulate and present a health services research study plan in a grant proposal.        | COPH 6437<br>Grantsmanship and the<br>Peer Review Process          | Written Assignment: Students write a complete grant proposal using NIH grant guidelines that could be submitted for funding consideration. The assignment is graded using the 9-point scale used by NIH to evaluate grant applications.  |  |  |
| 5. | Defend selection of policy solutions through multiple modalities for diverse audiences. | HPMT 6114 Advanced Public Health Policy & Management               | Criteria Alternatives Matrix (CAM) Assignment. Students are to use the CAM approach to select a policy to address a health / public health problem. They must give a formal presentation (oral modality) with electronic and hardcopy slides (written and visual modalities) as well as submit a paper on their policy analysis project. The presentation and paper must describe the problem to be addressed, methods used including criteria used to evaluate policy alternatives (solutions), the policy alternatives that were considered, principle findings, and implications for policy adoption. The assignment is graded based on criteria listed in the course syllabus. |  |  |
