PhD in Epidemiology at UAMS
Class Size and Selection

Admission is competitive; a maximum of 3 to 6 students will be selected for Fall admission each year.
Selection Criteria

The PhD Advisory Committee will consider the sum total of the application and will not allow a single factor to outweigh others in making recommendations for admission. The following will be included in such considerations:

- The overall undergraduate GPA
- The undergraduate GPA in math and science courses
- The undergraduate GPA in writing courses
- The overall graduate GPA
- The graduate GPA in biostatistics courses
- The graduate GPA in epidemiology courses
- The GRE Verbal Reasoning scores
- The GRE Quantitative Reasoning scores
- Research experience
- Authorship on peer-reviewed research projects
- Letters of recommendation
- The Statement of Purpose
- Fit with faculty research
- Work experience (public health, community, health-related, etc)
