PhD in Epidemiology at UAMS
Successful Completion of Courses

Courses must be completed with a grade of “B” or better to be considered successfully completed. Only successfully completed courses can be counted toward degree requirements. When a listed requirement for enrollment in a course includes completion of a prerequisite course, the prerequisite course must also have been successfully completed. All coursework must be completed within 5 years after enrollment in the program. Full-time students must complete the program within 7 years after enrollment. Students who were accepted as part-time students, or who had their enrollment status changed to part-time time with approval by the PhD Advisory Committee, must complete the program within 9 years after enrollment.
